GPA: 3.88

## Projects

### 🐙 Wonder Mobile Development - Dart/Flutter

Mobile application for Android that aimed to connect people together. Users in help can create a post and other users can reply in chat. A simple social app that shows users' post in the Google map.

### 🐙 Heart Failure Prediction Machine Learning - Python

ML *group* project that uses RF, KNN, ANN, Logistic regression and Ada-Boost algorithms to predict likely hood of a heart attack. I worked on 🐙 Random Forest classifier

### 🐙 Personal Site Web Development - HTML/CSS/JavaScript

*[In progress]* My personal site created using HTML, CSS and JavaScript.

## Coursework

Machine learning (Python, KNN, SVM, RF, Decision Trees, ANN), Mobile development(Dart/Flutter), Operation Systems, Data Structure (C++), Systems Programming (C/Unix), Numerical Methods, Computer Organization and Assembly Programming (MIPS), Formal Languages and Automata, Introduction to Programming and Problem Solving (Java), Statistic and probability (R/Matlab).

## Work History

Mar. 2019 – Present **Hostess**

*Raffi's Place* - Glendale, CA

Mar. 2017 – Aug 2019 **Print & Marketing Associate**
